¹ Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

² Default mode in accordance with ISO/IEC 22505 for MFPs.

³ The quoted yields were estimated using ISO/IEC 22505 tests in Default Mode and single-sided continuous printing methodology, using the monochrome test pattern provided in ISO/IEC 19752. Actual yields will be lower with higher-density images, hot or dusty conditions or less frequent printing. Ink cartridge is used for printing and printer/all-in-one maintenance. For print quality, part of the ink from the included cartridge is used for printer startup and a variable amount of ink remains in the cartridge after the "replace cartridge" signal.

A4 MONOCHROME INKJET PRINTERS WORKFORCE PRO WF-M5399/M5899

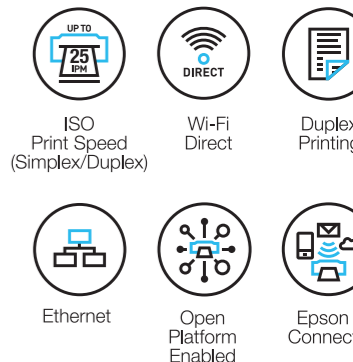

EPSON

UNLOCK OFFICE EFFICIENCY WITH COST-EFFECTIVE AND RELIABLE PRINTING.

Elevate Office Efficiency with Eco-Friendly, High Productivity A4 Monochrome Printers.

Engineered for eco-friendliness and peak efficiency, the Epson WorkForce Pro WF-M5399 and WF-M5899 monochrome printers embody unwavering performance with a consistent 25 ipm print speed. Encased in compact, space-saving design, they house an array of user-friendly features. With Heat-Free Technology, they embrace energy conservation, consuming less power and resources compared to traditional laser printers*. These robust business inkjet printers feature high-yield ink packs for minimal maintenance downtime. Supported by a comprehensive software suite and versatile connectivity, they are the ultimate office solution.

Energy- and Resource-Saving
The eco-friendly printers use less power[†], consumables, and replacement parts^{††}, and are built with 5% recycled plastic.

Improved Productivity
Printing at an improved speed of 25ipm with fast First Page Out Time (FPOT), the printer also supports various software solutions.

Stress-Free Operation
The WF-M5399/M5899 is packed with a multitude of new features to enhance usability, such as new user interface and high capacity ink packs.

Amendment of the below clause is updated as of 1st November 2021.

*Testing was commissioned by Epson and conducted by Keypoint Intelligence. One specific model was selected from color laser multi-function printers in the 65-70ppm class. Epson WorkForce Enterprise WF-C21000 with 100ppm (equivalent model in Europe was used during the evaluation). This data is as of September, 2020. Devices were tested in default mode as per Keypoint Intelligence's proprietary standard energy consumption test methods. Calculations were based on a weekday workload of 2 x 4 hours printing + 16 hours in sleep/standby mode, and weekend energy use of 48 hours in sleep/standby mode. A total of 69 pages of workload test pattern using DOC, XLS, PPT, HTML, PDF files and Outlook email messages were printed six times in each 4-hour printing period.

** Testing was commissioned by Epson and conducted by Keypoint Intelligence. One competitor model was selected from worldwide best-selling vendor* in the 65ppm and 70ppm colour laser multi-function printer. Epson Work Force Enterprise WF-C20600 with 60ppm (equivalent model in Europe was used during the evaluation). Consumables and periodic replacement parts required to print 1M pages. The weight includes all used consumables, periodic replacement parts and their packaging. Test printed pattern used was IS024712.

Combining durability and cost-efficiency, the environmentally-friendly Epson WorkForce Pro WF-M5399/M5899 monochrome business inkjet printers deliver exceptional print performance alongside an extensive selection of software solutions tailored for efficient office printing.

With an array of user-friendly features and versatile connectivity options, you can achieve higher productivity for your business.

Built for the Environment

Energy Saving

The new WorkForce Pro Mono Inkjet printers use lower power consumption, fewer replacement parts, and fewer consumables than comparable Laser printer models, thereby reducing environmental impact without compromising on output.

Both the Epson WF-M5399 and WF-M5899 boast remarkably low TEC values of just 0.18 kWh and 0.2 kWh respectively. Additionally, unlike conventional laser copiers/printers, these models generate no heat, thanks to the Epson PrecisionCore Heat-Free printhead technology, contributing to their enhanced environmental friendliness.

Superior Print Speed

Designed for offices, PrecisionCore Heat-Free Technology enables a swift first page out at up to 25 ipm. Experience seamless workflows, reduced waiting times and enhanced energy efficiency, all contributing to a more productive workspace.

Engineered For Stress-Free Operation

New User Interface

Enhanced usability with colour-coded icons for each function and quick access to print, scan, and copy features.

Efficient Document Management

Only for WF-M5899

Automate your document workflows and digitalisation with a 1-pass duplex ADF scanner.

Low Running Cost with Less Intervention

The Replaceable Ink Pack System allows for easy installation and enables printing of up to 40,000 pages (Extra high capacity ink pack) with less intervention by reducing the frequency of consumables replacement.

Compact Size

Compact and sleek, the WF-M5399/5899 design embodies efficiency, allowing you to accomplish more while taking up minimal space.

Improved Paper Handling and Simple Maintenance

Optional Cassettes

Expand the paper handling capacity to up to 1,830 sheets by adding up to 3 optional paper cassettes with the capability to load different media types for automatic selection.

Paper Feed Roller

Extend the life of the printer and minimise down time with user replaceable periodic parts.

Comprehensive Workflow Solutions Empowering Productivity

Epson Solutions Suite

Manage your device fleets, enhance document security, simplify workflow processes and reduce printing costs with a suite of software solutions.

Print Management

Epson Print Admin

A server-based solution that creates a secured centralised printing, scanning and copying environment through user authentication. Advanced reporting functions can help organisations reduce printing costs and run Managed Print Programmes.

Epson Print Admin – Advanced Workflows

Enable advanced document processing workflow features within Epson Print Admin. Convert documents into Searchable PDF with built-in OCR and automate processes by various job separation methods.

Document Management

Only for WF-M5899

Document Capture Pro

Scan, edit and process documents with automatic workflows. Convert documents into Searchable PDF or editable Office documents with built-in OCR and upload them to popular cloud storage. Automate processes by various job separation methods. Locate documents and improve security with index logs and securing network scanners with a password.

Document Capture Pro Server

Centralise scanning and document workflow supporting up to 1,000 scanning devices with a single server. Automate processes with OCR and Barcode detection capability. Improve security and document tracing with reports and indexing.

Document Capture Pro – Enhanced OCR

Expand the capability of OCR functions in Document Capture Pro with wider language support and improved accuracy. Capture data from forms with advanced indexing functions.

Fleet Management

Epson Device Admin

Monitor the status and simplify the task of configuration, maintenance and updating Epson devices in the network with a single tool. Receive alerts automatically when the devices indicated warning or error messages.

Epson Remote Service (ERS)

Cloud-based Device Management System which enables convenient management, billing programmes and provide accurate support for devices in your or your customer's organisation.

Integration with Third-party Solutions

Epson Open Platform

Epson Open Platforms make the devices compatible with a wide variety of solutions in the market, making it possible to integrate Epson devices with enterprise applications and workflows based on the customer's needs.
